It is the sixth installment in the Fatal Fury series and the second game in the Real Bout sub-series, after the original Real Bout Fatal Fury. The Real Bout Fatal Fury Special has all the new graphics and returns to the two-level plane system from Fatal Fury 2. The game was later included in Fatal Fury Battle Archives Vol. 2, a compilation released for the PlayStation 2. In March 2017, this compilation was re-released in PlayStation Store on PlayStation 4. [1] Gameplay Gameplay screenshot show off a match between Terry Bogard and Blue Mary. This section needs expansion. You can help by adding it. (April 2020) Although gameplay is two-dimensional, characters can move between two different planes during combat. [2] Breaking an opponent through one of the barriers on either side of a stage makes them stunned. [2] Characters This section needs expansion. You can help by adding it. (April 2020) The game retains the cast of the original Real Bout, with the addition of Tung Fu Rue, Cheng Sinzan, Laurence Blood, and Wolfgang Krauser from fatal fury special, with Krauser as the new final boss. Geese Howard, who was canonically killed off in his own KOF tournament during the previous game, appears in this game as a hidden final boss in a special Nightmare Match and as an unlockable playable character in the home versions, Geese's live appearance is due to its own from the original Real Bout where it takes after he reigns victorious in his own tournament. The game also features hidden extra versions of Andy Bogard, Billy Kane, Blue Mary, and Tung Fu Rue for a total of 23 characters (24 if counting Geese). Development This section needs expansion. You can help by adding it. (April 2020) Release This section needs expansion. You can help by adding it. (April 2020) The game was ported to the Neo-Geo CD with several add-ons such as a Versus mode and a blue mary music video that will be shown to the player after completing arcade mode after following the credits. This port also saw a release for the Sega Saturn, using the 1MB RAM cartridge expansion of the system to retain sprite animations. A port of Real Bout Special titled Real Bout Fatal Fury Special: Dominated Mind was released on PlayStation in 1998 only in Japan, which adds Alfred Airhawk from Real Bout Fatal Fury 2 (which had been released a few months before on Neo Geo) as a playable character, and features a brand new boss character named White (modeled after the character Alexander Alex DeLarge from A Clockwork Orange). This port adds animated videos for the game's intro and character endings. These cut scenes were produced by Sunrise. The story of this version revolves around White's brainwashing of Billy Kane and tried to take over Southtown's underworld in the power vacuum left by Geese Howard's death in the original Real Bout. In this version, Geese sports a halo over his head, a reference to his passing in the original Real Bout. Dominated Mind also features new moves, hidden unlockable super moves, super cancelling (known in the game as Final Impacts), and removed the two line combat system from the game. The extra versions of Andy, Billy, Mary and Tung are removed. The Game Boy version, titled Nettou Real Bout Garou Densetsu Special (中中>餓狼special), was released only in Japan on March 27, 1998, with simplified graphics and two-button games. This version features only 12 playable characters: a roster consisting of Terry, Andy, Joe, Mai, Blue Mary, Duck King, Kim, Jin Chonrei, Billy, Yamazaki, Laurence, and Krauser. Geese Howard appears as a hidden character, as does Iori Yagami from The King of Fighters series. Reception This section needs expansion. You can help by adding it. (April 2020) In Japan, Game Machine Real Bout listed Fatal Fury Special on their March 1, 1997 issue as the most successful arcade game of the year. [3] The game was a success in the arcades. [4] According to Famitsu, both aes and neo geo cd versions sold over 9,169 and 20,246 copies respectively during their first week on the market. It is the sixth installment in the Fatal Fury series and the second game in the Real Bout sub-series, after the original Real Bout Fatal Fury. This game features all new graphics and returns to an improved two-level flat system similar to Fatal Fury 2. A gate to playstation was made and reworked Real Bout Garou Densetsu Special Dominated Mind. Story A translation of the official story is as follows: The stories of the legendary battle have been unfurled. Eyes met on both sides and fists clashed. Ironically, fate took hold of the chaos and started another sublime development. Even if there doesn't seem to be any requests for that... Now the experienced fighters can reflect on their fights and wounds. What recognition were they looking for with their strength? Each of them is legends in their own right. No one wants to adopt this struggle can change this fact. But no fight is ever perfect. These fights alone could not satisfy them ... Wings spread to the sky... United to decide who is superior, martial artists gather to refine themselves in battle. On stage known as the Real Bout Fatal Fury Special.
